The Sixth International Conference on Smart Vehicular Technology, Transportation, Communication and Applications (VTCA 2024) is hosted by Shu-Te University and Taiwan Association for Web Intelligence Consortium and is technically sponsored by National Kaohsiung University of Science and Technology. The purpose of VTCA 2024 is to bring together engineers, researchers, and practitioners interested in the advances and applications in the field of Vehicle Technology and Communication. We invite submissions of original research papers for the conference tracks: (1) Vehicular Electronics, (2) Intelligent Transportation Systems and Applications and (3) Vehicular Networking Security. Topics of interest include, but are not limited to:

Track I: Vehicular Electronics

- Autonomous driving technologies
- Human machine interface (HMI) for smart cars
- In-car electronics and embedded integration
- Vehicle power systems
- Vehicle stability controls

Track II: Intelligent Transportation Systems and Applications

- Green Transportation
- Intelligent Freight Transport, Logistics and Automation
- Advanced Traffic Control and Management
- Driver and Traveler Support Systems
- Electronic Toll Collection and Payment

Track III: Vehicular Networking Security

- Privacy issues in VANETs
- Secure communication in VANETs
- Security in physical layer of VANETs
- Security in protocol layer of VANETs
- Security in application layer of VANETs
